

FUNCTIONAL TEST FORM FOR STORE OWNER/MANAGER

Name of Evaluator: Banesa P. Dimalilay Position: _____

Instructions:

Please assess each functionality of the SUBAY system based on your observation during the demonstration. Mark ✓ for "Yes," X for "No," or N/A if not applicable.

Functional Test Form for Store Owner/Manager			
No.	Description	Yes	No
1	Was the system able to accept and display video feeds from the existing CCTV infrastructure?	✓	
2	Did the system successfully detect and highlight customers entering the store on the feed?	✓	
3	Did the system consistently track customer movement across different store zones?	✓	
4	Was the system able to detect when customers interacted with shelves or display zones?	✓	
5	Did the system automatically log customer entries, exits, and dwell times without manual intervention?	✓	
6	Did the system assign and maintain unique tracking IDs to customers throughout their store journey?	✓	
7	Was customer behavioral data (e.g., foot traffic, dwell time) displayed correctly and clearly on the dashboard?	✓	
8	Could the user view foot traffic heat maps and generate behavioral trend charts from the collected data?	✓	
9	Was access restricted through an admin login, and was no personally identifiable information (PII) collected or displayed?	✓	
10	Did the system maintain responsive performance even when handling multiple video streams simultaneously?	✓
